AI Sales Intelligence & Quality Prediction Report

Generated Date: August 28, 2026 at 07:58 PM

1. Sales Forecast Summary

Metric	Result
Predicted Sales	6,405 coffee units
Demand Level	Medium Demand
Prediction Message	Predicted coffee sales for January 2027: 6,405 units (Medium demand).

2. Coffee Quality Prediction

Category	Result
Predicted Quality	MEDIUM

3. Monthly Performance Comparison

Metric	Value
Previous Month Sales	6,583.88
Current Prediction	6,404.95
Change	Down 2.7%

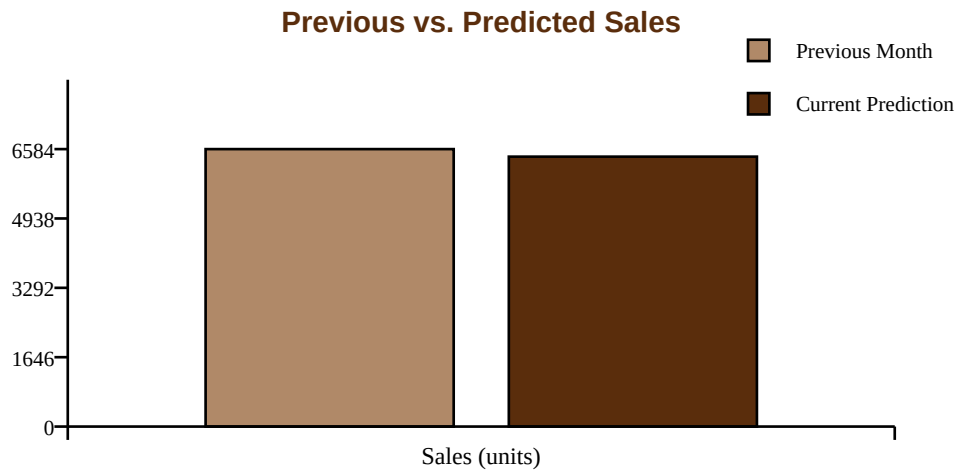

Figure: previous month sales vs. current AI-predicted sales.

4. Weather Conditions Used By AI

Weather Factor	Value
Rainfall	71.42 mm
Humidity	71.58 %
Avg High Temperature	31.58 C
Avg Low Temperature	22.71 C
Rainy Days	6.12
Cloud Cover	30.0 %

Weather Factors Used By The AI Model

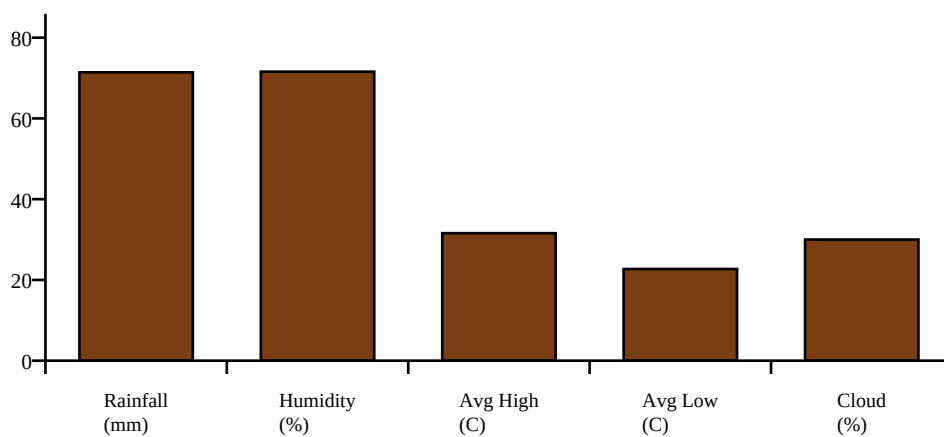

Figure: relative magnitude of each weather input to the model.

Rainy vs. Clear Days (per 30-day period)

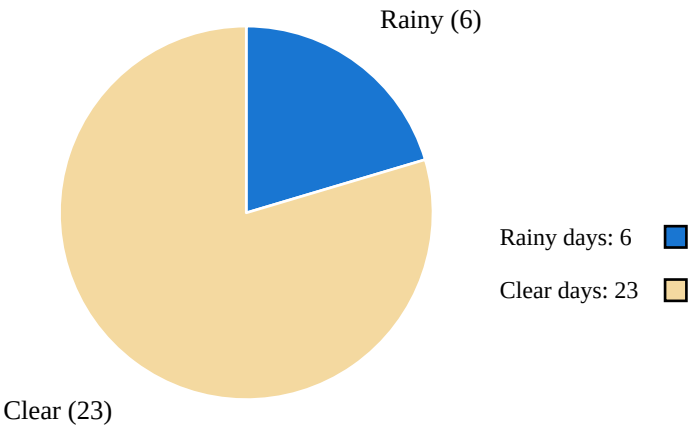

Figure: rainy vs. clear days over the reference period.

5. AI Decision Support Guide

Recommendation	Details
Recommendation	Maintain Normal Operations
Action Required	- Continue regular production schedule - Monitor market changes closely - Maintain quality standards - Review performance metrics weekly
Priority Level	Normal Priority
Timeline	Regular monitoring
